The Irwin slipped into the harbor late last Thursday night February 5th with a big cargo of sugar, etc., from Honolulu, having been 17 days on the trip. To-day at noon she sailed for the islands with 80 tons of freight and 40 tons of ballast, having taken on the cargo in 8 1/2 hours. A peculiarity about the "1891" is that adding the first figure to the second makes the third, and subtracting the fourth figure from the third gives the second. Adding the four figures together gives us the number of the century.—Water-town Times.

Carrie Lane Chapman Cat said in her recent speech at the suffrage convention in Des Moines: "But isn't so easy to get a husband. There are not enough men to go around—at least decent ones. There are a great many thousand-dollar women now. They can't be expected to nearly 10-cent men."

NAVAL.

The fleet of government vessels lying at Mare Island Navy Yard is as large as it was two months ago. The number is likely to be increased by the arrival of the Omaha and the Charleston before another month passes away. The list of vessels now includes the San Francisco, Swatara, Marion, Thetis, Nipsic, Adams, Alert, Patterson, Monodnock, Hartford, Independence and the monitor Comanche.

On Monday the San Francisco was hauled alongside the quay wall for the purpose of having removed four of her gun carriages that were injured on the recent trip of the vessel. The carriages can be repaired at very little cost and the work will be done at the yard.

Captain Sampson denied the statement that the vessel was not to be a flagship, and also stated that he had received no definite orders as yet regarding her destination. He considered the recent trip a successful one in every respect, and ventured the remark that the vessel was as well behaved as one could be during the test. It will be some time in March before the San Francisco leaves the yard.

The Charleston's 8-inch guns are expected at the yard daily, as they have been on the way from Washington fully a month!—S. F. Bulletin, Feb. 5.

Senator Morgan, of Alabama, declares the seals which bear their young in American waters and live their during certain months, are as much the property of the United States when out of her waters as his pigeons are still his when they fly from their habitation in his barn to his neighbor's roof. This is a new view of the Behring Sea controversy.

Stringent regulations have recently been issued at Bahia, Brazil, and vessels are recommended when approaching the harbor to display signal flags indicating their last port of call. Should this not be done immediately a gun is fired to enforce attention, and repeated with very little delay if necessary. As a fine of \$10 is imposed for each gun fired, captains are warned that they must be on the lookout or else pay the fine.

The first pineapples ever raised in Santa Barbara county, says the Press, have just matured at Kinton Stevens' place in Montecito. Mr. Stevens has a number of the plants growing and about a dozen have ripened. They are of the most delicious flavor, much superior to those imported. They are raised under glass but without artificial heat. It takes about eighteen months for the fruit to mature from planting, but one is well repaid for the patience it requires.

I desire to call the attention of all concerned to the fine quality of Watch Work now being done at my establishment. Owners of high grade Watches have been placed to much inconvenience from time to time, by finding it necessary to send their Watches abroad for the slightest repairs.

Since October 1, 1890, I have been in a position to repair the finest known makes of watches, and at no higher cost than the same would be charged for in the U. S. The same attention is paid to an ordinary watch, as to one costing you \$500. Remember that even the comparatively simple process of cleaning a watch should be done by a skilled workman; or more harm than good will result therefrom. If your time-piece is beyond repair, you will be told so, and put to no expense in having it overlooked.

Watches from outer districts will be securely packed and mailed to the owners. H. F. WICHMAN, Box 342, Honolulu.
